Quantitative Trader Futures MFT Jobs In Dubai | Quantitative Talent

About the job

Our client is a leading global quantitative trading firm. The firm is committed to developing its people, providing a collaborative and supportive work environment, and delivering exceptional returns for its investors. They are seeking a talented and motivated Quant Trader to join their team. The successful candidate will be responsible for developing and executing mid-frequency (minutes to days) futures trading strategies, leveraging advanced quantitative techniques and data analysis. Our client offers a highly competitive compensation package, including a base salary, performance-based bonus, and other benefits.

Responsibilities:

Develop and implement MFT futures trading strategies, leveraging advanced quantitative techniques and data analysis

Conduct research and analysis to identify new trading opportunities and optimize existing strategies

Build and maintain trading models and algorithms, using programming languages such as C++, Python, or Java

Continuously monitor and evaluate trading performance and implement improvements as necessary

Collaborate with other traders and analysts to develop and refine trading strategies

Manage risk exposure and ensure compliance with relevant regulations and internal policies

Communicate trading ideas and strategies to other team members and senior management

Requirements- Minimum of 5 years of experience as a Quant Trader specializing in MFT futures strategies at a reputable trading firm

Strong knowledge of futures markets and related products, including algorithmic trading, statistical arbitrage, and market microstructure

Proven track record of success in generating profits through MFT futures trading strategies

Excellent analytical and quantitative skills, with a strong understanding of advanced mathematical concepts and statistical analysis

Extensive programming skills in languages such as C++, Python, or Java

Ability to work effectively in a fast-paced and dynamic trading environment

Strong communication and interpersonal skills, with the ability to work collaboratively as part of a team

Bachelors or Masters degree in a related field, such as mathematics, computer science, or finance
