Responsibilities:

Conduct thorough cost estimations for steel structure construction projects, including material, labor, and equipment costs.

Monitor project costs throughout its lifecycle, track expenditures, and prepare regular cost reports to ensure adherence to budget.

Identify and assess commercial risks associated with construction projects and develop strategies to mitigate them.

Accurately measure and quantify materials required for steel structure projects.

Analyze and review construction contracts, subcontractor agreements, and change orders to ensure accuracy and cost-effectiveness.

Implement cost control measures to manage project expenses effectively.

Apply Also Barista Jobs in Dubai | PULLMAN

Requirement

Bachelor's degree in Quantity Surveying, Civil Engineering, or a related field.

Minimum of 3 years of experience as a Quantity Surveyor in steel structure construction projects.

Proficiency in quantity takeoff software and MS Excel.

Excellent knowledge of construction contracts and procurement processes.

Strong analytical and problem-solving skills.

Ability to work independently and collaboratively within a team.

Familiarity with UAE construction regulations and practices.

Effective communication and negotiation skills.

Detail-oriented and organized.
