Company: Miral

Location: United Arab Emirates

Category: healthcare-practitioners-and-technical

Rides Engineer is responsible To ensure a smooth and efficient operation of the Farah Experiences Leisure Facilities in the Technical Services Rides Department in relation to the Company Core Process; thus directly impacting on the maintenance of rides, facilities and attractions.

This position applies a working knowledge of engineering fundamentals to the division's engineering activities under the direction of Rides Management team, required to interact with other personnel to provide project-related engineering support including those in QA, Installation, and Procurement. It involves the design, production support, integration, testing, troubleshooting, and commissioning of ride systems

Job Scope:

Maintain, erect, repair and troubleshoot various theme park rides and attractions as directed.

Execute efficient preventive maintenance program and identify the causes of malfunctions.

Perform visual inspections of assigned rides and attractions as necessary and will be able to train junior staff for inspections as necessary.

Remove, install, repair and test all electromechanical equipment of rides, animation and attractions.

Perform other maintenance functions and assists other colleagues as needed by supervision.

Independently performs difficult engineering tasks to completion that may include a variety of

complex features, conflicting design requirements, unusual materials requirements, and the need to coordinate the work of others.

Provide feedback and technical perspective into the design during the design phase reviews.

Perform assembly, integration, factory testing, and maintenance/repairs on equipment/systems within his or her area of expertise in accordance with appropriate standards and procedures and in accordance with appropriate Safety Standards.

As an ideal candidate, you must have:

Technical Diploma or Degree to related field

Working knowledge of industrial control products to include: Programmable Logic Controllers (PLC), Servo and Variable Frequency Drives (VFD), Human Machine Interface (HMI) Panels, Networking equipment (wired and wireless), Analog, Digital and Serial devices

3+ years' direct hands-on experience in the area of expertise (mechanical, electro-hydraulic, electrical/electronic)

3+ years' experience with equipment significantly similar to amusement attractions

Should possess practical skill and proficient knowledge in two or more trades, such as: mechanical, electrical, electronics, hydraulics, pneumatics, welding and small combustion engine repair and maintenance.

Solid understanding of hardware, bolted connections, and torque.

Demonstrated ability to work effectively in all aspects of the area of expertise.

Strong testing and troubleshooting skills with the ability to think "outside the box".
