

RISK MANAGEMENT OPPORTUNITIES

[Apply Now](#)

Company: KBR, Inc.

Location: dubai

Category: other-general

OverviewThe Programme and Project Partners (PPP) model was mobilised in 2019 with the purpose of transforming major project delivery at the Sellafield nuclear site. The partnership brings together KBR, Jacobs, Morgan Sindall Infrastructure, Altrad Babcock and Sellafield Ltd to deliver a 20-year pipeline of major infrastructure projects to support the decommissioning of Sellafield and to create a clean and safe environment for future generations. In delivering its pipeline of large-scale infrastructure projects, PPP is creating opportunities for its people, supply chain, economy and communities. KBR's rapidly growing nuclear team of teams is working at the forefront of the UK's nuclear space on some of the most exciting new-build, defence and decommissioning programmes. KBR was recently named a "Great Place to Work-Certified" company in 2023, an honour that underscores the company's commitment to being a UK employer of choice for people who want to do work that matters. Now is your chance to be part of this vital work. There are a number of opportunities we will be recruiting for as part of this programme delivery throughout the duration of the contract, particularly supporting the business operations in RISK MANAGEMENT. The ideal candidates should have previous experience of document control working in a busy pressured environment. If you would like to be considered for a role supporting Sellafield PPP, please submit your CV and profile by clicking 'apply' against this requisition. Your profile will be stored for consideration, and a KBR representative will be in touch when an appropriate opportunity becomes available.
