Company: Expert Hub Robotics

Location: dubai

Category: other-general

Not Disclosed1 VacancySave This JobPosted on :04-11-2022The job posting is outdated and position may be filled1.1. Research & Development Conducting research in various robotics fields (e.g. nanotechnology), Designing processes and prototypes to build machines. 1.2. Responsible for designing, developing, testing, and building robotic android applications that are productive and safe to operate as well as economical to purchase and maintain. Conduct research to determine the parameters of a robotic application. Develop cost-effective and efficient processes to produce the machines.1.2. Perform integration tests and quality control1.3. Test performance; record test procedures and results. Install, program and repair controllers, tools, conveyors. Inspect installation sites; train operators on robotics usage. Development of computer software and/or path programming.1.4. Monitor the performance of robots, and IT infrastructures. Ensures that internal IT structure of the enterprise remains up-to-date. Administrators avert possible cyber-attacks for greater productivity as per company policies and procedures. Manage all servers, network equipment, and other related IT infrastructure.1.5. Train Robots : Apply machine learning techniques, to design and build robotics applications and devices. You ll use computer-aided modelling to create drafts, and perform tests on the robots to ensure safety and quality. Perception, mapping, anomaly & change detection. Monitor the use of robotic systems and optimize their functionality1.6. Install network and computer system, maintain, repair and upgrade the operating system including hardware and software. Troubleshoot defects in the robot design1.7. Respond to support queries, on call, chat, email, and walk-in, in a timely and accurate way, by either answering the questions or passing it to the appropriate support staff, to ensure customer support.

Manage the Customer enquiries, and technical tickets, allocating tickets to the respective team, responding to complaints from customers and give after-sales support when requested.

1.8. Keep abreast of advancements in robotics and relevant fields of engineering.

1.9. Participate and take active role as advised by management in Robotic events by the company like Robo CAMP, Robotics Championships, Robotic Internships, Events, Exhibitions, and Expo.

Requirements

2.1. Degree in Engineering, Mechatronics, or similar field, in Robotics

2.2. With minimum 2 years in Robotics.

2.3. Excellent knowledge of CAD/CAM software. Android Application development, with strong knowledge of Android SDK, different versions of Android, and how to deal with different screen sizes

2.4. Basic computer skills, HTML, JAVA, IT Hardware, including Microsoft Office and databases. Expertise working with, Zoho Zoho Finance, Zoho CRM Plus, writing proposal and presentations.

2.5. Consistent, accurate, and thorough with an eye for details.

2.6. Exceptional organizational skills, outstanding communication skills, written and verbal.

2.7. Excellent customer service and interpersonal skills, with good phone and email etiquette

2.8. Able to thrive in a deadline-driven environment, provide timely reports, and feedback.

2.9. Able to motivate the team and lead by example.

2.10. Current knowledge of industry trends and regulations.

2.11. The ability to multitask, work in a fast-paced environment, and meet deadlines.
