development sales support product development electrical engineering engineering  
Description Job Summary; We are looking for a talented Sales Engineer with a strong  
background in industrial automation to drive sales growth and foster long-term customer  
relationships. The ideal candidate will be responsible for understanding customer needs,  
presenting technical solutions, and collaborating with cross-functional teams to ensure  
successful implementation of our industrial automation products. Key Responsibilities: • Build  
and maintain strong relationships with existing and potential clients in the industrial  
automation sector. • Understand customer requirements and challenges to provide tailored  
solutions that meet their specific needs. • Technical Sales: • Utilize in-depth knowledge of industrial  
automation products and technologies to effectively communicate product features,  
advantages, and benefits to customers. • Collaborate with the technical team to develop  
customized solutions based on client requirements. • Sales Strategy: • Develop and implement  
strategic sales plans to achieve revenue targets and expand market share. • Identify new  
business opportunities and areas for growth within the industrial automation sector. • Conduct  
product demonstrations and presentations to showcase the capabilities of our industrial  
automation solutions. • Address technical queries and concerns to ensure customer confidence in

the product. • Quotation and Proposal Development: • Prepare accurate and competitive quotations and proposals for industrial automation projects. • Work closely with the sales support team to ensure timely and precise documentation. • Stay informed about industry trends, competitor activities, and market developments. • Provide feedback to the product development team to enhance existing products and identify opportunities for new offerings.

Qualifications and Skills: • Bachelor's degree in electrical engineering or a related field. • At least one year of experience in the UAE. • Proven experience in sales within the industrial automation sector. • Strong technical background with the ability to understand and communicate complex engineering concepts. • Excellent interpersonal and communication skills. • Results-oriented with a track record of meeting or exceeding sales targets. • Ability to work collaboratively in a team and independently. • A driving license is a must.

Working Conditions: 3500-4500 AED Job Specification Rabia Yasin (Recruiter) is in search of talented and motivated individuals for the post of Sales Engineer - Industrial Automation in the field of Sales in one of their office located in Dubai - United Arab Emirates.
