We're looking for a SAP ABAP Developer to develop and (technical) support the SAP ERP integration with our in-house developed e-Commerce solution: Sana Commerce. What you'll be doing:

Responsibilities:

Providing technically expertise integrating our in-house developed e-Commerce solution (Sana Commerce) with the SAP ERP (ECC/ S4HANA);

Designing, developing, and implementing SAP ECC 6.0 & S/4HANA application software with combination of our integrated solution on top of it;

Investigating, troubleshooting, and resolving SAP system and software problems;

Writing software and system support documentation and procedures;

Independent task handling and providing optimum technical solutions to the customers together with functional consultant.

Requirements:

Bachelor's degree in Computer Science (or related) with software programming skills;

At least 5 years of experience with SAP ECC / S4HANA. ABAP development related certifications is preferable;

Experience with Fiori and BTP;

Knowledge of the latest SAP technology;

Experience working within a projects environment; handing multiple projects at time with

deadlines;

Excellent communication skills to meet our global customers in multiple time zones;

Knowledge of an agile and adaptive way of working.
