

United Arab Emirates Jobs Expertini®

Senior Android Developer (Freelance)

[Apply Now](#)

Company: Red Jaguar Marketing

Location: United Arab Emirates

Category: healthcare-practitioners-and-technical

Red Jaguar is a multi-country company with focus on high-end, state-of-the-art development of Mobile Apps from scratch for different kind of business lines, like banking, POS and more.

Currently we are working on an Android project and looking for a Senior developer, who is able to develop profiles and workflows beside API handling. We would expect about 50-60 hours a month of workload and compensate with AED 6000.00 after completion of the given tasks/benchmarks.

This would go along with assisting our supervisor who is developing the core and messaging center.

Additional skills in server based UI and implementing printer libraries and setting up parameters besides required documentation is also what we are looking for.

The Role

You Will Be Responsible For

Development of profiles for Android Apps.

Development of workflows for Android Apps.

API handling.

Ideal Profile

You possess a Degree/Diploma in Computer Science, Engineering, Android Development or related field.

You have at least 5 year experience, ideally within a Software Engineer and or Android Developer role.

You have working knowledge of Workflow, profile and API handling

You pay strong attention to detail and deliver quality work that is of a highest standard

You are highly goal driven and work well in fast paced environments and in a team

You enjoy finding creative solutions to problems

What's on Offer

Work alongside & learn from best in class talent

Excellent career development opportunities

Opportunity to make a positive impact
