Company: Jacobs

Location: united arab emirates

Category: other-general

Welcome. You haven't signed in yet so please select 'I accept' to start or access your Jacobs Career Application. My Account Options Your Impact: Our People & Places Solutions business - reinforces our drive to improve the lives of people everywhere and epitomizes the why of what we do - the tremendous positive impact and value our solutions bring to our communities and society as a whole. Start your Jacobs career with a company that inspires and empowers you to deliver your best work so you can evolve, grow, and succeed – today and into tomorrow. At Jacobs, we push the limits of what's possible to make the world smarter and more connected. As part of our on-going collaboration with key clients throughout the Middle East and our ambitious growth plans, our Ports & Maritime team is expanding, and we welcome the opportunity to add further talent to Jacobs. As a Senior Coastal Engineer/Project Manager, you will lead the delivery of marine projects across the Middle East. You will be responsible for managing a team to deliver technical design work that includes the preparation of design calculations, drawings and reports. You should be a committed and motivated manager with strong technical experience and passion for marine and coastal engineering. You should have a track record that shows technical skills and project leadership. You will be responsible for the overall delivery of marine projects and lead the day-to-day interaction with our clients. You will be responsible for directing the project team to deliver all aspects of the project. You will be responsible for overseeing the technical delivery of project tasks including preparation of reports and presentation of engineering designs. You will be expected to coach junior engineers in technical aspects of marine and coastal engineering. You will be required to interact and coordinate with Jacobs global marine and

coastal engineering teams. Coordinating resources and support for your project delivery. Experience of the following is preferable: Strong track record in project management and delivery of marine/coastal design projects and project teams. Good people management skills. Design experience of breakwaters, beaches, groynes, dredging and reclamation and other coastal maritime structures. Knowledge of associated tools and techniques. Knowledge of the design of marinas would be an advantage. Familiar with coastal numerical modelling would be an advantage. Knowledge of authority requirements for waterfront and marina projects would be an advantage. Waterfront development master plans, beach and edge protection design. Excellent communication, with strong verbal and excellent written English and presentation skills. Strong client facing skills. Ability to communicate confidently and effectively with colleagues and clients. You must be able to manage your own time and that of your team members to ensure successful delivery of tasks. Experience in technical proposal preparation and work winning would be an advantage. You will enjoy working as part of an international team. Here's What You'll Need: As a successful candidate you will have a relevant degree in Coastal, Civil, Marine or Ocean Engineering (from a recognized University) as well as having 7+ years of experience with marine and coastal engineering. Experience working in the Middle East is advantageous, as is being a qualified member of a recognized institution or organization (to include but not necessarily be limited to ASCE, ICE, IMarEST, etc.). From our inclusive employee networks to our positive mental health champions – we are committed to encouraging a culture of caring where you can be you. Joining Jacobs not only connects you locally but globally - and together, our diverse perspectives and unique backgrounds impact our collective strength. We collaborate and share! By supporting one another, we all succeed. With safety and flexibility always top of mind, we have gone beyond traditional ways of working so you have the support, means and space to maximize your potential. You will uncover flexible working arrangements, benefits, and opportunities to do good too - from participating in our global giving and volunteering program, to exploring new and inventive ways to help our clients make the world a better place. No matter what guides you, you will discover how you can cultivate, nurture, and achieve your goals - all at a single global company. Primary Location Job Posting
