Senior Computer Vision Engineer | GE Aerospace Abu Dhabi

GE Aerospace is a world-leading provider of jet and turboprop engines, components and integrated systems for commercial, military, business and general aviation aircraft. At GE Aerospace, we believe the world works better when it flies.

Job Description Summary We are seeking a highly skilled and experienced Senior AI/Computer Vision Engineer to join our Engineering Lean team. As a key contributor to our innovation and transformation efforts, you will play a pivotal role in designing and building robust computer vision products that can address a business need.

[Senior Computer Vision Engineer | GE Aerospace Abu Dhabi | Apply Now](#)

Bachelor's Degree in Computer Science or "STEM" Majors (Science, Technology, Engineering and Math) with significant experience.

Minimum of 5 years of relevant experience in the design and deployment of AI models, particularly deep learning and computer vision.

Strong programming skills in Python, Java, C++, or other programming languages.

Experience with deep learning frameworks (TensorFlow, PyTorch, Keras).

Familiarity with cloud services (AWS, Azure, GCP) and edge computing.

Proven track record of solving complex problems with real-world data.

Ability to work in a fast-paced, collaborative environment. Excellent communication and leadership skills.

Understanding of full stack platform concepts and technologies.

Recognizes patterns and complexity in problems. Extracts decomposition algorithms, and strategically plans how to execute programs by understanding how best to decompose to expose / protect against risk.

Preferred Qualifications

Publications or a strong portfolio of projects in computer vision or related fields.

Experience with 3D computer vision and sensor fusion.

Knowledge of GPU programming and optimization.

Experience with deploying AI solutions in embedded systems.

Don't miss out on this exciting opportunity – apply now at dubaiofferz.com
