Consultant

114060BR

Job Description

**Role – Senior Consultant – Oracle DBA**

**Technology – Oracle DBA**

**Location – Abu Dhabi**

**Business Unit – CISFS2**

### Job Description

Today, the corporate landscape is dynamic, and the world ahead is full of possibilities! None of the amazing things we do at Infosys would be possible without an equally amazing culture, the environment where ideas can flourish and where you are empowered to move forward as far as your ideas will take you.

At Infosys, we assure that your career will never stand still, we will inspire you to build what's next and we will navigate further together. Our journey of learnability, values and trusted relationships with our clients continue to be the cornerstones of our organization and these values are upheld only because of our people.

### Your role

As a Senior Consultant, you are an expert at contributing to implementation, configuration, maintenance, and performance of SQL Server. You will need to:

Capacity and resource planning, Estimated the size of data files and redo log files.

Participate in the implementation of new projects, performance tuning, recommending solutions to enhance performance.

Perform 2nd and 3rd level support to all customers' infrastructure and develop solutions to stabilize customer environments.

Oracle database installation, administration and support

Database and Index reorganization

Batch management, Patch management, disk space administration, performance tuning

Backup/Restore, Systems tuning, Database backup/restore.

Review new applications and/or upgrades to assure achievement of corporate service level commitments.

Implement, review and maintain security settings and patches to achieve bank security standards.

Provide advice and guidance to the development community early in the development cycle to build "supportability" and "security" into new and/or revised applications.

### **Required**

10+ years of experience as a Oracle Server DBA or similar role

Experience in Performance Tuning and Optimization (PTO)

Hands on knowledge of backups, restores and recovery models.

Working experience in Unix/Linux/Windows environments

Sense of ownership and pride in your performance and its impact on company's success

Having problem-solving skills

## Personal

Besides the professional qualifications of the candidates, we place great importance in addition to various forms personality profile. These includes.

- High analytical skills
- A high degree of initiative and flexibility
- High customer orientation
- High quality awareness
- Excellent verbal and written communication skills
- Fluent in spoken and written English
- Good interpersonal skills, able communicator
- Team player
- Experience in multinational and multicultural environments.
