Senior Data Lab Solutions Architect | Amazon Jobs in Dubai 2022

Description:

At AWS, we're hiring highly technical cloud computing architects and engineers to collaborate with our customers on building solutions in database, data management, and analytics. AWS Data Labs are global and online based facility where customers come to build data and analytics platforms

Responsibilities:

You will focus on real time and batch-based data processing, business intelligence, analytics, and machine learning systems.

These solutions are built alongside the customer and quickly put into production use in a matter of weeks.

You'll work closely with AWS Field Teams including Solution Architects, Technical Account Managers.

Requirements:

Possess significant experience of software development and/or IT and implementation/consulting experience.

Strong verbal and written communications skills are a must, as well as the ability to work effectively across internal and external organizations and virtual teams.

Ability to think understand complex business requirements and render them as prototype systems with quick turnaround time.
