Senior Front end Engineer – Javascript Jobs in UAE | Upwork Jobs 2022

Apply Now

Company: Upwork

Location: united arab emirates

Category: other-general

We are looking for a Senior Frontend Developer to build up one of our most complicated website's SPAs! You will be working on sophisticated UI applications such as recording candidate applications, messaging, and lots of real-time interactions and resolving client needs to complete the hiring process.

We're taking advantage of Vue.js, Nuxt.js, Angular.js, Web Components, AWS, Docker, microservices, Symfony to help build apps that millions of freelancers use every day.

Work/Project Scope

you will be working with teams of 15+ engineers, product managers, and designers to build outstanding features for our users!

you will ensure and maintain a high-level of quality for UI components

you will need to attend at least three meetings weekly (often in Eastern time, and lasting 1-2 hrs each)

Must Haves (Required Skills)

8+ years of software development experience

deep knowledge of modern JavaScript (ES6+), CSS, and HTML

extensive experience with a modern JS framework, such as Vue (preferred), React, or Angular

experience with unit testing and end-to-end UI testing

basic understanding of accessibility (WCAG) guidelines and engineering principles

self-motivation, self-organization and self-education skills

English on at least an intermediate level (should be able to pass the technical interview in English)

basic knowledge of PHP, Node.js, or other server-side languages

basic understanding of system design principles

Upwork is proudly committed to fostering a diverse and inclusive workforce. We never discriminate based on race, religion, color, national origin, gender (including pregnancy, childbirth, or related medical condition), sexual orientation, gender identity, gender expression, age, status as a protected veteran, status as an individual with a disability, or other applicable legally protected characteristics.
