Description:

We are looking for a skilled Front-end Developer with expertise in React to join our team. The ideal candidate should have experience in developing responsive and interactive user interfaces for web applications. The candidate should be passionate about creating elegant and efficient code, and should have experience working in a collaborative development environment.

Responsibilities:

- Design and develop user interfaces using React and related frontend technologies.
- Collaborate with designers and developers to ensure the applications meet the requirements and are delivered on time.
- Write clean, efficient, and well-documented code that is easy to maintain.
- Participate in code reviews and provide feedback to other developers.
- Conduct thorough testing to ensure high-quality code.
- Keep up-to-date with emerging trends and technologies in frontend development.

Requirements:

5-7 years of experience in frontend development with expertise in React.

Strong proficiency in JavaScript, HTML, CSS, and related frontend technologies.

Experience with responsive and mobile-first design.

Familiarity with Redux, Webpack, and other frontend tools and libraries.

Comfortable working in an agile development environment.

Experience with dev ops tools like Git, Docker & AWS is a must.

Ability to write clean, efficient, and well-documented code.

Ability to work independently as well as part of a team.

Strong communication and problem-solving skills.

Preferred qualifications:

#J-18808-Ljbffr
