Company: ignite selection

Location: Dubai

Category: healthcare-practitioners-and-technical

On or our clients, a leading Design Studio in Saudi Arabia is seeking a Senior interior design for hospitality, workplace, residential and F&B projects.

Key Responsibilities include:

- Responsible for developing interior design concepts in coordination with the Principal Interior Designer and the architecture team.
- Provides conceptual design, design development, and production drawings of interior projects.
- Produces space plans, furniture plans, and elevations, 3D models, presentation documentation, detailed specifications, and construction documentation.
- Applies knowledge of furniture, fixtures, and equipment and prepares or supervises preparation of FF&E budgets and FF&E specifications.
- Selects interior finishes, furniture, and equipment. Reviews drawings, mockups, materials, and finishes samples.
- Presents designs to the client, including putting together sketches, color boards, and sample materials.
- Responsible for generating interior design drawings utilizing AutoCAD, Revit, or other suitable software.
- Reviews pricing, materials, and customization for projects and provides design support for completion/execution of design concepts.
- Develop and document interior design details as required on a project-by-project basis.
- Provide solutions to design problems and generate design alternatives.
- Writes or reviews FF&E and finishes specifications which are then used as part of the

contract documents of the project.

- Provide project data as requested by Project Architect or Project Manager (i.e. finish schedules, material samples, furniture information, room data sheet, etc.).
- Meet with the suppliers' sales or representatives (ie. fabric, carpet, and furniture) to stay current on product lines.

Requirements:

- Degree in Architecture / Interior Design or equivalent
- Minimum 8 years experience in Interior Design in Saudi Arabia
- Proven working experience in a design/ architectural practice
- Proficiency in InDesign, PhotoShop, Illustrator, SketchUp, Revit, AutoCAD is essential.
- Good hand sketching skills are highly preferred.
