

Senior iOS Developer (Swift)

[Apply Now](#)

Company: Hire My Tech

Location: dubai

Category: other-general

Description:

HMT is looking to hire a “Senior IOS Developer (Swift)” for one of our prestigious client. We are looking for an experienced Android developer (4+ years) with a strength in Java to develop the next generation of mobile application for a world class exchange and other products in our ecosystem. Collaborating as part of a Product team with PMs, designers and other engineers, your work will be the face of the company’s exchange on the Android platform. If you think you have what it takes to build the best exchange platform on Android in the industry, we would like to hear from you. Apply now!

Responsibilities

Create and maintain advanced application for our exchange on the iOS platform

Have the ability to balance high response, stable and efficient code with attractive and functional aesthetics

Work together with cross-functional teams to define, design, and ship new features

Troubleshoot issues and bugs and improve application performance

Explore, evaluate, and implement new technologies to maximize development efficiency

Requirements

4+ years’ experience in iOS app development with a strength in Swift (must have)

Proficient in UIKit, with a comprehensive understanding of iOS UI architecture

Be able to troubleshoot existing code base and enhance functionalities.

At least one original iOS application is published in the app store

Significant experience in software development, including work with third-party libraries and APIs

Good knowledge of the general mobile landscape, architectures, trends, and emerging technologies

Good understanding of the full mobile development life cycle

BS or MS degree in Computer Science, Engineering or other related area

Interest in cryptocurrency and experience with payment/finance related apps is a big plus

Good to have knowledge of React Native for iOS platform

Good understanding of iOS Unit testing in Swift

Fast moving, challenging and unique business problems

International work environment and flat organization

Great career development opportunities in a growing company

Competitive salary

Flexible working hours, Casual work attire
