Job Description

Senior Manager, Infrastructure Gas Projects

Location: Dubai

Focus: Gas

The Company:

Revolutionizing the way the world accesses clean, affordable, and reliable energy. Their focus is on providing flexible LNG solutions to emerging markets across the globe, delivering a lesser emitting form of energy to regions that often rely on coal as their primary energy source. They believe in sustainable results achieved by delivering on our promises and investing in our people, assets, and technology.

The Role:

As the Senior Manager, you will play a pivotal role in supporting current and future global projects as part of the infrastructure team. Collaborating closely with individuals from Infrastructure, Operations, and Commercial teams, you will lead the development and implementation of new projects while supporting the engineering needs of our existing assets.

Your responsibilities will include:

- Ensuring safety is paramount in all aspects of work planning and execution, adhering to Core Values.
- Supporting the Permitting team in developing necessary environmental and permitting documentation.
- Participating in activities related to project risk analysis, evaluation, remediation, and data integration.
- Ensuring project compliance with applicable codes, practices, policies, performance standards, and specifications.
- Managing infrastructure projects, including gas transmission, pipeline (onshore and offshore) design, and LNG loading terminal infrastructure design.

About You:

We are seeking an experienced professional who embodies a commitment to excellence.

The ideal candidate will have:

- 10+ years of relevant experience in infrastructure projects.
- Expertise in gas transmission, pipeline design (both onshore and offshore), and LNG loading terminal infrastructure design.
- Familiarity with Stage Gate Project Development Processes.
- A background in engineering, with a focus on telecommunication infrastructure, civil engineering, or related fields.
- Proficiency in project management, including cost control and data center management.
- A customer-focused mindset, ensuring project success while meeting stakeholder needs.

What's Next:

You will probably want to know more about the company and what you can expect. If this sounds like a career challenge you could do, please apply directly. If your CV is not up to date, please still apply to be considered.
