Excellent organizations with best practices in the market|Excellent Career Progression within the organization

About Our Client

We are partnering with Government Entity in United Arab Emirates that is expanding their market share in the country and know for their high quality standards.

Job Description

Conduct Route review summary of financial statement.

Serve as project manager for special transportation planning projects, including analysing and summarising data, presenting information and recommendations on policy issues, and facilitating interdepartmental and outside agency coordination.

Analyse transportation systems and policies to identify problems and potential solutions; and prepare reports of findings, recommendations for policies, plans and projects.

Develop Population Distribution Maps for new developments and analyse it.

Perform other responsibilities associated with the position as appropriate.

Develop Cost benefits Analysis for new service alternatives of PuT routes.

The Successful Applicant

Bachelor in Engineering: Civil / Urban Planning from a recognised university.

Goal-driven leader who maintains a productive climate and confidently motivates, mobilizes, and coaches employees to meet high performance standards.

Exceptional listener and communicator who effectively conveys information verbally and in writing.

Results-driven achiever with exemplary planning and organisational skills, along with a high degree of detail orientation.

Highly analytical thinking with demonstrated talent for identifying, scrutinising, improving, and streamlining complex work processes.

Excellent knowledge in Mapping Software.

Computer-literate performer with extensive software proficiency covering wide variety of applications.

6 years of relevant experience

What's On Offer

Excellent package and benefits and organic growth within the business.
