Senior Production Engineer Jobs In Dubai UAE | McDermott International, Ltd

[For More Top Organization Jobs Click Here](#)

Leads the discipline production engineering team, drafting squad leaders, material controllers etc. to meet project fabrication requirements. Technically capable in strategizing and delivering the discipline level fabrication efforts for complex EPIC projects. Manage inter/ intra- functional interfaces at discipline level for fabrication portion of project with minimal guidance. Responsible for optimal utilization and developing of the discipline team assigned on project.

Responsibilities:

Understand the overall project scope of work to lead and guide the discipline production engineering team to meet project fabrication deliverables in line with fabrication sequence/ schedule. Eg: identify discipline constructability requirements, Issuance of approved workpack index, ensuring all deliverables (drawings & materials) are available to issue workpacks, workpack issue, assembly check list issue, change management like MOC/ SQS/ TQ/ VO, issue subcon RFQ's/ SWO's etc.

Manages discipline level project fabrication progress within schedule, and productivity within targeted budget in coordination with project Operations Engineer.

Supports project Operation Engineer to manage inter/ intra – functional interfaces and project reporting requirements like AFC estimate review, subcon coordination, project status reporting, developing fabrication sequence, conduct constructability reviews etc.

Lead project constructability reviews on a discipline level including resolution of construction problems with intra/ inter function interfaces. Eg: Out of Sequence installation of a valve due to delay in deliveries.

Interface for discipline level requirements with key project personnel from various functions like Engineering, SCM, Quality, HSE, Cost control, Marine Operations, hook up etc. to meet priorities and schedule dates for project fabrication requirements. Eg: Attending expediting meeting to communicate material delivery priorities, reviewing, and communicating Marine deliverables requirement to meet fabrication plan/ sequence.

Requirements:

Education: Engineering Bachelor's Degree with 1st class honors

Skills and Abilities: Expertise and working knowledge for over 8 years on single or multiple disciplines for fabrication portion of oil & gas offshore structures like Topsides, Jacket or Pipeline.

Experience: Minimum 2 years of experience as Sr. Engineer / Leading discipline Engineers in Petrochemical/ Oil & Gas/ Similar Construction industry Fabrication Projects
