Description:

Over the past 38 years Drydocks World-Dubai, a DP World Company, has become a leading provider of marine and offshore services to the shipping, oil, gas and energy sectors. Conceived as an ambitious project under the guidance of H.H. Sheikh Rashid Bin Saeed Al Maktoum the late Ruler of Dubai, the yard is strategically located in a rapidly developing region of the world.

Responsibilities:

Leading a multi discipline engineering team for major new build & conversion scope at yard.  
Sound knowledge of piping and equipment: basis of design, equipment sizing and selection for pumps, heat exchangers, compressors, engines, evaporators, valves, pressure/flow control devices.

Specify equipment data sheets and specifications, vendor data review, equipment manufacturing, factory acceptance tests, package engineering.

Mechanical design and calculations of machinery spaces, equipment supports, material handling devices, installation and maintenance methodologies.

Knowledge of EIT integration engineering.

Knowledge of structural engineering

Experience with oil and gas and LNG systems.

Technical review of quotations and liaison with chosen vendors.

Act as project engineering manager on conversion projects.

Manage and supervise engineering subcontractors.

Prepare engineering deliverables / man-hour estimate /schedule for projects.

Control and monitor man-hour consumption versus project achieved progress.

Participate in design reviews and take necessary follow up actions.

Requirements:

Master of Science degree in Related Engineering field from reputable universities.

10-15 Years of experience in related fields including work in engineering companies and EPC contractors

In-depth knowledge of conversion engineering scope..

In depth knowledge of materials / piping system design and construction.

Knowledge of oil and gas process / LNG/cryogenic fluids/natural gas containment, handling, liquefaction and regasification systems in line with latest technologies available in the industry.

Well versed with the rules and regulations of leading Classification Societies, IACS and SOLAS.

Strong background with resolution of technical issues during project engineering and execution phases.

Project management & planning skills.
