1- Senior Software Engineer

Job: Full Time

Location: Dubai, UAE

Description:

The Senior Software Engineer is a fully participating member of a cross functional team working autonomously on technology development and problem resolution. The role involves the design, development, implementation and maintenance of technology solutions and products that support the Emirates Group Business.

Job Responsibilities:

Lead technical design and build for small to medium sized solutions in a team.

Debug issues of complexity and follows design documents with minimal or no supervision.

Code review by peers/technical leads demonstrates good coding principles.

Work on problems of diverse scope where analysis of data requires evaluation of identifiable factors.

Job Requirements:

Microservice or Microfrontend architecture

Java 11-17 or JavaScript/TypeScript

SpringBoot 2.X or latest ReactJS/NextJS

Reactive approach / functional programming style
