As a Senior Manager in the firm's TMT division, you will define engagements and lead interesting and exciting strategy and advisory projects for clients in the GCC.

Responsibilities:Lead projects and provide strategic direction to deliver a superior client experience

Staying up to date with current emerging technologies and build deep sector expertise to manage engagements across accounts within chosen industry/sector

Focus client on value-generating initiatives to accelerate the pace of change; identify metrics to monitor and analyse performance against corporate goals

Manage and advance relationships with clients beyond immediate engagement needs and serve as a trusted advisor

Anticipate challenges to strategy implementation and proactively plan to mitigate risks

Leverage industry trends to advise clients on how to create sustainable sources of advantage and differentiate their value proposition for future business growth

Requirements:An undergraduate degree from a top-tier university, preferably in the fields of economics, business administration, public policy, finance, or engineering

An MBA or relevant master's degree is strongly beneficial but not essential

Must have 10 years' experience in strategy consulting within a top firm / mix of strategy

consulting and relevant industry experience with large multinational companies

Ability to lead the analysis of organisational problems, direct implementation for prescribed solutions, and manage client's expectations on the impact of recommended changes

Strong command of written and spoken English; Arabic language skills are strongly preferred

Ability to travel extensively, and on a weekly basis, as required#J-18808-Ljbffr
