Senior SW Engineer (iOS) Jobs in Dubai 2022 | Visa Careers

### Description

We are looking for a technically expert Senior Software Engineer for our team based out of the Dubai office, to support the global rollout of mobile products for iOS.

## Responsibilities:

In this position, your primary responsibility is to support clients in their integration journey with Visa SDKs and underlying APIs.

Your strong analytical skills, problem solving abilities, coding, testing and debugging skills, along with good communication will help you be our clients' technical consultant and a go-to resource for all technical questions.

You are also a self-starter, able to observe common client issues and come up with standard solutions for them.

## Requirements:

BS degree in Computer Science, Computer Engineering, or a related field

5+ years of hands-on mobile product development for iOS (either native or hybrid) and RDBMSes (SQL or NoSQL)

Experience with web technologies (TCP/IP, HTTP, HTML, JavaScript, CSS), RESTful APIs, JSON and relevant API standards like OAuth, SAML
