Description:

Provide leadership, direction, and guidance to the Plant and to its Operators throughout the operation, maintenance, and testing of the Barakah Nuclear Power Plants (BNPP) to achieve and maintain a high level of safety and reliability in accordance with all operating procedure & policies, regulatory requirements, and nuclear, industrial, and environmental protection standards.

Responsibilities:

Oversee all operations of each nuclear power plant including the shutdown of the reactor/turbine if required, in order to ensure safe, reliable, and efficient plant operation.

Maintain control of key safety functions while the unit is in a shutdown/outage condition, in order to ensure zero challenges to shutdown core cooling.

Oversee all activities that affect core reactivity, to ensure that the highest standard of nuclear

safety and conservatism is maintained.

Oversee and manage plant systems in all modes of operation to ensure compliance with procedural standards.

Execute Plant Emergency Director responsibilities with the authority to direct mitigating actions during accident events.

Oversee the unit activities to ensure compliance with technical specifications, regulatory requirements, and approved procedures.

Coordinate daily and weekly activities with the Head of Operations Support to address any potential issues or risks applicable to work performed.

Coordinate with other units at BNPP with respect to switchyard operations and major plant wide events to ensure common understanding of operations.

Requirements:

Bachelors Degree in Engineering or relevant Science.

2 years of related Nuclear Power Plant Experience may be substituted for the Bachelor's Degree in addition to the required experience.

10 years of relevant experience, out of which:

2 years in a Managerial role.

4 years of Nuclear Power Plant Experience, including:

#J-18808-Ljbffr
