Responsibilities:

- Oversee and manage the installation of structural steel components on construction sites.
- Check technical designs and drawings for accuracy and compliance with project requirements.
- Coordinate site activities, including organizing manpower, materials, and equipment to ensure efficient project execution.
- Maintain effective communication with clients, addressing inquiries, providing updates, and managing client expectations.
- Implement quality control measures to ensure that work on-site meets engineering standards and specifications.
- Enforce safety protocols and ensure that all site activities adhere to safety regulations.
