About the Job Opportunities in Geelong and Ballarat Site Manager Opportunity Are you looking for work West of Melbourne? We are looking for an experienced Site Manager to join our client's team of experts, who specialize in delivering high-quality projects in the Educational and Healthcare sectors. The organisation pride themselves on their collective experience, knowledge and expertise of its founders. The team is built on a culture of collaboration, integrity, and excellence, where every member is valued and encouraged to contribute their unique skills and perspectives.

About the Role The successful candidate will oversee the construction of new build projects, primarily focusing on educational facilities such as schools and healthcare facilities, which can mean live environments. The ideal candidate will not only possess the necessary technical skills and experience but will also be a cultural fit for our client's company values and ethos.

Responsibilities: Manage all aspects of the construction site, ensuring adherence to project timelines, budgets, and quality standards. Coordinate with subcontractors, suppliers, and other stakeholders to ensure smooth project execution. Conduct regular site inspections to monitor progress and identify any potential issues or risks. Implement and enforce safety protocols to maintain a safe working environment for all personnel on site. Collaborate with the project management team to develop and update project schedules and budgets. Provide regular reports to senior management on project progress, including any deviations from the plan and proposed solutions. Foster positive relationships with clients, architects, engineers, and other project stakeholders.

What you will bring to Role: Bachelor's degree in construction management, engineering, or a related field (preferred). Strong experience in construction management, with a focus on new

build projects. Proven experience managing projects in the range of \$20-30 million. Experience in multi-storey construction projects is highly desirable. Experience overseeing Construction Projects in Live Environments is highly desirable. Strong leadership and communication skills, with the ability to effectively manage and motivate a team. Thorough understanding of construction processes, building codes, and regulations. Proficiency in project management software and tools. Ability to multitask and prioritize tasks in a fast-paced environment. Certification in Construction Management or related field (preferred).

Who you are: Our client believes in hiring the right team members and that great connections produce great outcomes. They foster a positive and inclusive work culture where every team collaborates and flexibility is truly considered. We are looking for a Construction Site Manager who shares these commitments, and wants to add value to every construction project they manage. The ideal candidate will thrive in a dynamic and fast-paced environment, embrace new challenges with enthusiasm, and demonstrate a strong dedication to delivering exceptional results while upholding the company's values.

What's in it for you?

Competitive Compensation: This position offers a competitive salary, which is dependent on experience and skills. We recognise that different candidates have different experiences and look forward to discussing this with you.

Professional Growth: Join a company committed to continuous improvement and professional development to help accelerate your in the industry.

Dynamic Projects: Be a part of a fast paced industry and work on diverse projects, each presenting unique challenges.

Dynamic and collaborative work environments
