

## Sitecore Developer

[Apply Now](#)

Company: Raqmiyat Dubai

Location: dubai

Category: other-general

Design, develop and maintain Sitecore based web applications, ensuring maximum performance, responsiveness and scalability. • • Implement and customize Sitecore components, templates, layouts, and pipelines to meet project requirements. • • Develop and maintain content creation workflows, ensure effective content management processes and enable content teams to create and update digital assets efficiently. • • Work closely with cross-functional teams, including UX/UI designers, UI developers and other stakeholders, to ensure successful project delivery. • • Write effective unit tests to ensure a high level of code quality and reduce the number of bugs in the application. • • Work in an Agile environment, participating in sprint planning, stand-up and survey meetings. • • Integrate and optimize applications on cloud platforms, including Azure, AWS, or Google Cloud. • • Contribute to the development of advanced solutions that are consistent with the mission and objectives of Abu Dhabi Ports Group. People Management Responsibilities: • • Collaboration: Work closely with team members, designers and business analysts to ensure effective communication and teamwork. • • Knowledge sharing: Share your technical knowledge and expertise with colleagues, helping them solve challenges and promoting skills development. • • Mentoring: Provide guidance and support to junior developers, apprentices and interns, helping them develop their skills and understand best practices. • • Code review: Participate in code review to maintain code quality and adherence to programming standards. • • Problem Solving: Collaborate with team members to identify and address technical problems and challenges, and foster a culture of problem solving and innovation. • • Feedback: Provide constructive feedback to colleagues when reviewing their work and are willing to receive

feedback from others to facilitate continuous improvement. Strategic responsibilities: • •

Technology Roadmap: Contribute to the development and implementation of the

Technology Roadmap, and assist in the identification and adoption of new technologies

and practices. • • Architecture Planning: Participate in architectural discussions and decision making, ensuring technical solutions align with long-term business goals.
