Smart Cities Consultant | Jacobs Engineering Jobs in Dubai

Description:

We are looking for a Smart Cities consultant who is able to focus on details and see the big picture. You will be joining a team who is delivering digital transformation in cities, regions and developments, supporting Clients on major projects globally across multiple sectors. This is an exciting opportunity to join a high-performing team in a rapidly growing market, realize real change and contribute to revolutionary change on a city scale.

Responsibilities:

You will be responsible for building your personal brand and developing relationships internally and with clients to help us share knowledge and deliver best practice, you will also be called upon to help colleagues develop their digital awareness, sharing their own knowledge to help others.

Requirements:

Degree qualified with engineering, architecture or economics specialized

Experience delivering strategies and projects for cities, regions, developments, and communities to help the harness the potential of digital technologies.

Experience of working with national or local government bodies and/or with property and infrastructure companies
