

## SMART Cities Lead - Strategic Planning

[Apply Now](#)

Company: AECOM

Location: dubai

Category: other-general

Minimum Requirements: 15+ years of experience in infrastructure design and project management, with a focus on urban development, transportation, utilities, or related fields. Demonstrated experience leading multidisciplinary teams on complex projects, preferably in the context of smart city initiatives. Excellent communication, negotiation, and presentation skills, with the ability to effectively interact with clients, stakeholders, and team members. Strategic thinking and problem-solving abilities, with a track record of delivering innovative solutions to address urban challenges. Proven ability to manage budgets, schedules, and resources to meet project objectives and client expectations. Familiarity with relevant industry standards, regulations, and best practices in smart city planning, design, and implementation. Passion for sustainability, resilience, and equitable urban development, with a commitment to creating inclusive and thriving communities through smart city solutions. Join our dynamic team and contribute to shaping the future of cities through transformative smart city infrastructure projects! Qualifications Bachelor's degree in civil engineering, urban planning, architecture, or related field (Master's degree preferred). 15+ years of experience in infrastructure design and project management, with a focus on urban development, transportation, utilities, or related fields. Demonstrated experience leading multidisciplinary teams on complex projects, preferably in the context of smart city initiatives. Excellent communication, negotiation, and presentation skills, with the ability to effectively interact with clients, stakeholders, and team members. Strategic thinking and problem-solving abilities, with a track record of delivering innovative solutions to address urban challenges. Proven ability to manage budgets, schedules, and resources to meet project objectives and

client expectations. Familiarity with relevant industry standards, regulations, and best practices in smart city planning, design, and implementation. Passion for sustainability, resilience, and equitable urban development, with a commitment to creating inclusive and thriving communities through smart city solutions.
