Smart Contract Auditor

Apply Now

Company: SuperMoney, LLC.

Location: united arab emirates

Category: other-general

About us:

Founded in 2018 with the vision to secure the web3 world, QuillAudits is a leading smart contract audit firm committed to securing Blockchain projects with cutting-edge Web3 security solutions.

Audits have become crucial to securing smart contracts considering that over 100 deFi and smart contract exploits have occurred in the last six months alone, and around \$1.6 billion have been lost.

Under this role, you will be working with the QuillAudits team; As a result of our industry-leading and quality assured services, we have helped 850+ web3 projects to eliminate serious security threats and have secured \$30B+ in total value locked.

<https://www.linkedin.com/company/quillaudits>

What you will do:

Review the code (primarily solidity contracts) of blockchain projects.

Identify points of interest for R&D in the field of blockchain.

Understand business logic & workflow and perform unit testing, integration testing and functional testing.

Identify vulnerabilities, design and architectural flaws, quality improvement, and ways to mitigate future risk.

Write clear and concise reports and “action-steps” for developers to quickly mitigate and fix any issues discovered

Provide insights in establishing best practices for security culture within the industry.
Interact with developers, and key stakeholders when identifying and handling security issues
Train and mentor jr. smart contract auditors within the team.

What we are looking for:

A deep understanding of the EVM, the ETH Yellow Paper, & EVM OP_Codes

Fluency in Solidity

Hands-on experience in Javascript/Typescript/Python

Knowledge of various ERC standards and EIPs.

Thorough understanding of NFT, NFTMarketplace, DAO and various Defi protocols like Uniswap v2 and V3, Pancakeswap, Compound, AAVE.

Experience with security CTFs, like QuillCTF, Ethernaut, Damn Vulnerable Defi, etc

Experience with development environments like Hardhat, Truffle, etc.

1+ years experience in solidity

1+ years experience as a smart contract auditor

Experience writing production level solidity code

Understanding of Smart Contract Security Principles
