

## SoC Firmware Engineer

[Apply Now](#)

Company: Google

Location: dubai

Category: other-general

.Minimum qualifications: Bachelor's degree in Computer Science, Computer Engineering, a relevant technical field, or equivalent practical experience. Experience with SoC cycles. Experience coding in C/C++. Experience with embedded systems/firmware design. Preferred qualifications: Experience with hardware design (e.g., computer architecture and/or chip design). Experience with SoC power management techniques. Experience with SoC Secured Boot flow. Familiarity with PCIe, DMA, virtualization, or memory modules. Familiarity with hardware emulation and modeling. Ability to work with device level hardware and software, especially in a lab environment.
