Solutions Architect, Totogi Jobs In Dubai | Crossover

[For More Top Organization Jobs Click Here](#)

Description:

Unlike in most companies, you won't just sit around all day pulling tickets and wondering whether you're doing them correctly. In this role, you will maximize the utility of your technical toolbox to solve the most complicated customer implementation problems in our organization.

Responsibilities:

First, emails may take up to 15 minutes to send, refresh and check again.

Second, check your spam and junk folders for an email from Crossover.com, mark as "Not Spam" since you will receive other emails as well.

Third, we will send to whatever email account you indicated on the Apply form – by default, that is the email address you use as your LinkedIn username and it might be different than the one you have already checked.

Requirements:

At least 5 years of technical experience in the telecommunications industry

Basic coding ability (in any language) and experience using MySQL

Proficiency in at least 3 of the following technologies: Gitlab, Jenkins, Chaos Monkey,

Kubernetes, Grafana, Redis, Hazelcast, Kiali, Active MQ, Artemis, Kafka, Bootstrap, EJB, jBPM, Hibernate, Oracle, PostgreSQL, JQuery, FTL, Struts, Core Java, Hibernate, Spring Boot, Apache Tomcat, JSP, Spring MVC, Angular, Drools, PHP, NodeJS, Yarn, Airflow, Hive, Scala, Hadoop
