Description:

We are looking for an experienced Pathologist to be responsible for performing tests, laboratory work, and pathological research. Your duties will include analyzing bodily fluids and tissue samples to study, diagnose, and treat disease.

Responsibilities:

Performing specimen analysis by using laboratory tools and equipment, in order to study samples and perform tests to accurately analyze bodily fluids and tissue specimens.

Looking for abnormalities in samples that evidence disease and conveying this information to the relevant medical practitioner.

Using checklists, medical software, and retesting to get thorough and precise results.

Suggesting potential treatment options.

Writing pathology reports detailing specimens tested, results of tests, and the final diagnosis.
