About AMANA

Group AMANA is in constant forward motion. Over decades of growth, we have adopted intelligent solutions that improve the way we build, making AMANA a regional leader in the industry today. We have gone beyond conventional construction by championing intelligent solutions that improve the way we build.

We are the region's trusted design-build company, specializing in industrial construction for over three decades. Our reputation is built on our ability to provide turn-key solutions for fast-track projects, repeatedly.

We are a human-centric organization, promoting learning and development opportunities for all employees to thrive in dynamic markets. By investing in our people's continued growth and learning, we challenge and change how we build together – people and business.

Role Description:

To control and coordinate the activities of estimating staff and preparing tender prices and quantities from drawings and designs and detail all materials necessary to achieve required specifications and calculate cost estimates for projects. To audit the quantities surveyed by the Junior Estimator/Estimator.

Role Responsibilities:

Develops accurate and clear cost estimates based on project data

Performs cost analysis such as preparing and analyzing costing for tenders to assist in anticipating project costs

Conducts feasibility studies to estimate materials, time and labor costs for projects

Assists in developing techniques/strategies to expedite the overall process of tendering starting from quantity surveying to completing the Estimation Sheets

Performs site visits and gathering necessary information such as accessibility, availability of electricity and services

Negotiates and prepares bids for tenders

Provides estimates for projects, including negotiating schedules of rates with selected Builders and then historical data of tendered prices on all projects for evaluation and assists in forecasting future costs including updating of the estimating database

Controls and coordinates the activities of the Estimating function for construction projects and engages with estimators to prepare Pre-Tender Estimates

Supervises the work of estimators and provides technical guidance for estimators in generating cost estimates and interpreting gathered information

Coordinates with the quantity surveyors to schedule costs related to the project and communicates cost estimates with concerned departments

Coordinates with tendering department staff to schedule project costs, resources and quantities as required and prepare tender prices

Communicates with external entities such as subcontractors / suppliers to prepare cost estimates by gathering cost related information as needed

Assists Chief Estimator to oversee the responsibilities and duties of all staff in the Estimation function

Assists in the training and development of personnel in the Business Development and Estimation function

Educational Qualifications, Experience and Skills:

Bachelor of Science in Engineering

Minimum of 6 years of relevant experience

Possess formal QS certification

Good knowledge in common contract conditions format (FIDIC, JCT, Government etc.)
