

United Arab Emirates Jobs Expertini®

Structural Design Engineer

Apply Now

Company: Aptus Personnel

Location: united arab emirates

Category: other-general

Why choose this company: This progressive Melbourne consultancy has delivered architecturally complex buildings within the residential commercial, retail and institutional sectors. They take on buildings that will challenge their team, thrive on solving the most difficult design problems and take pride in delivering beautiful buildings. This team is highly innovative, ambitious and passionate, it's evident once you walk through the front door.

About the role: This role is perfect for a Structural Engineer who has completed their Graduate program and is looking for the next step. With a minimum of two years experience, you will be responsible to design, analyze and deliver mid and high-rise concrete buildings projects. You will be working closely with an Associate that will mentor you. Please note, this role would not be suitable for more senior candidates due to the current team dynamics.

Your day will consist of: Design, analyze, and document projects
Daily use of RAPT, RAM Concept and ETABS
Resolve technical design & construction queries
Attend site inspections, resolve RFIs
Support senior management
Your talents will include: Minimum two years VIC consultancy experience as a Structural Engineer
Concrete framing experience is a MUST
Strong technical ability & software knowledge
Confident on site
Ability to multitask
Excellent collaboration and communication skills
Passion and a genuine desire to learn

How to apply: In an ever-increasing automated world, we're still human at Aptus and I love to chat. If you have any questions or would like to have a confidential discussion, please contact Siobhan on 0. Or pop a CV to . All correspondence is confidential.

Please note: This position requires experience in the Melbourne consultancy market as well as Permanent Residency or citizenship. Candidates who do not have this will not be contacted.
