Company: The Global Search Company

Location: united arab emirates

Category: other-general

We are seeking a dedicated and experienced Sustainability Manager to join a dynamic team in Dubai. As a leading industrial manufacturing company, our client is committed to operating in an environmentally responsible and sustainable manner. Responsibilities: Develop and implement sustainability strategies: Design and execute comprehensive sustainability programs and initiatives aligned with the company's vision and goals. This includes identifying areas for improvement, setting targets, and establishing metrics to measure progress. Environmental compliance: Ensure compliance with relevant environmental regulations, permits, and certifications. Monitor and report on key sustainability metrics, such as carbon emissions, energy consumption, waste generation, and water usage. Stakeholder engagement: Collaborate with internal teams, suppliers, customers, and local communities to promote sustainable practices and foster environmental stewardship. Establish effective communication channels to educate and engage stakeholders on sustainability initiatives. Resource efficiency: Identify opportunities to improve resource efficiency and minimize waste throughout the manufacturing process. Implement measures to reduce energy consumption, optimize water usage, and promote recycling and waste reduction. Sustainability reporting: Prepare regular sustainability reports and disclosures, including gathering and analyzing data, to track progress towards sustainability goals. Keep abreast of industry trends and best practices to continuously improve sustainability performance. Innovation and research: Stay updated on emerging sustainability trends, technologies, and regulations. Evaluate and recommend innovative solutions and technologies that align with the company's sustainability

objectives. Qualifications: Bachelor's degree in environmental science, sustainability, or a related field. Advanced degree preferred. Experience in sustainability management, preferably within the industrial manufacturing sector. Strong knowledge of environmental regulations, standards, and reporting frameworks. Demonstrated experience in developing and implementing sustainability strategies and initiatives. Proficiency in analyzing sustainability data and preparing comprehensive reports. Excellent project management and communication skills. Ability to collaborate effectively with cross-functional teams and external stakeholders. Strong problem-solving and decision-making abilities. Sustainability certifications such as LEED, ISO 14001, or equivalent are highly desirable. Join a team and play a vital role in driving sustainability within the industrial manufacturing operations.
