Your Impact: Thriving communities. Healthy cities. A brighter future. At Jacobs, what we do is more than a job, we work every day to make the world better for all. In our strategic advisory work, we're empowering our clients to deliver smarter, sustainable, and more affordable solutions for tomorrow. From optimising asset performance to developing robust strategic programs, we work to bind clients' strategies, organization and assets together to reduce risk, improve institutional outcomes and provide a return on investment. Are you someone who is forward thinking and passionate about identifying solutions which lie outside the box? If so, we'd like you to explore a role in the Solution Centre for Strategic Consulting at Jacobs. Elevate your career with a company that inspires and empowers you to deliver your best work so you can evolve, grow and succeed – today and into tomorrow. The Advisory teams provide strategic capital projects & transaction advisory services for major projects in the infrastructure market across all phases of the business life cycle, informed by our operational knowledge and deep functional expertise. By integrating both strategic and technical expertise we serve the "whole client" from the executive leadership to those who procure deliver projects and operations. Our group cuts across the different market sectors in the region which includes Water & Environment, Transportation, Built Environment and Healthcare. We seek a talented and dynamic Technical Consultant – PPP Transactions with relevant experience to join our growing team and work collaboratively with the Regional Strategic Consulting Teams. Job Responsibilities: As a Technical consultant, your

main responsibility will be to work with the regional consulting teams by participating in the development and driving growth of the team within the Jacobs organization. You will work on strategic positioning and value proposition development, including internal coordination across practice network. You'll be part of strategic technical analysis, due diligence, and high-level transaction advice on major infrastructure project development and procurement (traditional and alternative PPP models), presenting findings to clients and implementing follow-on programs. You will be working on key regional projects in the public-private partnerships (PPP or P3) market and assist in best practices. This includes the development, structuring and delivery of PPP projects that draw on commercial and non-commercial financing across all sectors. You will be involved in the preparation of value-for-money analysis reports which include option analysis, due diligence and benefits/cost assessments; oversee drafting and final output of technical reports, findings and responding to queries for public and/or private client work. You will support our clients to formulate policies, strategies and programs to accelerate private sector development and public-private-partnerships. You'll work on time-sensitive projects such as: strategy development, due diligence, risk appraisal, project monitoring, demand, revenue and CapEx/OpEx modeling, performance modelling, business case and economic appraisal. This role is vital in helping to monitor the investment climate in the Region, as you engage financial institutions, client and other stakeholders in policy dialogue on reforms to enhance the incentive framework for increased private participation. You will provide technical support in the development and completion of the business case, RFP documents, preliminary design and specification development.

Here's What You'll Need: Here's what you will need: A degree or professional qualification in planning, engineering, architecture. Postgraduate degree e.g (MBA), finance, or related field will be an advantage. Excellent analytical, quantitative, qualitative, strategic thinking, and decision-making skills Experience of producing high quality technical reports. Have experience in one or more related sectors (e.g. Water, Rail, Aviation, Ports and waterways, Transportation & Mobility, Building (social infrastructure)) Have an awareness in one or multiple industry standards (e.g. procurement models, design and build standards, maintenance standards, asset management standards, contracts) Strong analytical and structured thinking, exposure to team work as well as global stakeholder engagement. Strong research & analysis ability supplemented with excellent report writing capabilities. Effective communication including presentation and interpersonal skills with the ability to deal with people at all levels professionally. Following experience is a positive

advantage: A minimum of 5 plus years of experience across sectors such as Infrastructure, Water, Buildings, Healthcare, Power, and Energy is a positive advantage. Ability to develop feasibility studies, business case appraisals, business models is a desired experience in this role. Demonstrable knowledge of the PPP process (example: having worked with NCP processes) Experience of implementing the guidelines assessing/evaluating the commercial aspects of the PPP projects Jacobs. A world where you can. From our inclusive employee networks to our positive mental health champions – we are committed to driving a culture of caring where you can be you. Joining Jacobs not only connects you locally but globally - and together, our diverse perspectives

and unique backgrounds power our collective strength. We collaborate and share!

By supporting one another, we all succeed. With safety and flexibility always top of mind, we have gone beyond traditional ways of working so you have the support, means and space to maximize your potential. You will uncover flexible working arrangements, benefits, and opportunities to do good too – from participating in our global giving and volunteering program, to exploring new and inventive ways to help our clients make the world a better place. No matter what drives you, you will discover how you can cultivate, nurture and achieve your goals – all at a single global company. Start your Jacobs career with a company

that inspires and empowers you to deliver your best work so you can evolve, grow and

succeed – today and into tomorrow. Primary Location Other Locations Job Posting Job
