We support the needs of multiple industries, providing IT and OT security services to public and private organizations around the world, including international financial institutions and Fortune 500 companies.

CENSUS is an internationally acclaimed Cybersecurity services provider. We support the needs of multiple industries, providing IT and OT security services to public and private organizations around the world, ranging from financial institutions and critical infrastructure to automotive and secure communications, including Fortune 500 companies. Powered by cutting-edge research, scientific analysis and in-depth engineering experience across various industries & technologies, CENSUS delivers unparalleled security consulting & assessment services for products (software, services, devices, and large-scale platforms), infrastructure, and organizations.

Technical Project Manager | CENSUS Abu Dhabi | [Apply Now](#)

MSc or BSc in Electrical Engineering, Computer Science, Computer Engineering, Electronics Engineering, or equivalent practical experience.

4+ years of experience in application security related role. Experience can be an engineering / development position (e.g., consumer or enterprise), an assessment / consultancy role, an equivalent role in other engineering organizations, or a combination of them.

2+ years of experience in technical project management in a role related to product or

information security.

Key Skills & Preferred Qualifications

Experience with security concepts, cryptography, and protocols across various Application types (cloud, web, mobile, IoT / Embedded, etc.).

Experience with reviewing application security architectures & engaged technologies.

Experience with Mobile (iOS & Android), Cloud (GCP, AWS, Azure, etc.) or Web (Frontend & Backend) platforms.

Experience in reading source code, discerning business logic pitfalls, and identifying security flaws in at least one of the following groups of languages:

Mobile-relevant, such as Swift, Obj-C, Kotlin, Java, Dart, and JavaScript.

Web- and Cloud-relevant, such as Java, Ruby, Rust, Go, Python, PHP, C#, Lua, and JavaScript.

Experience with application authentication, authorization, identity, and access management methods, such as OAuth, SSO, JWT, PKI / Certificates, Cloud IAM, and Password-less authentication.

Familiarity with application security features and key management systems backed by secure hardware, such as Mobile Biometric authentication, Keystore / Keychain, TPM / vTPM, HSM and SE.

Familiarity with product security assessments and S-SDLC processes.

Experience with managing technical teams.

Experience with translating complex technical concepts into relevant messages suitable for various audiences (engineering and different tiers of management).

Experience with stakeholder management for security engineering deliverables.

Experience working with international teams located in other regions and time zones worldwide.

Excellent leadership, ownership, problem solving skills, and willingness to learn/grow.

Proficient in English and excellent communication skills.

Don't miss out on this exciting opportunity – apply now at dubaiofferz.com
