Category: management

Technology Consultant Jobs In Dubai | Domino's

About the job

Domino's Pizza, which began in 1960 as a single store location in Ypsilanti, MI, has had a lot to celebrate lately: we're a reshaped, reenergized brand of honesty, transparency and accountability – not to mention, great food! In the rise to becoming a true technology leader, the brand is now consistently one of the top five companies in online transactions and 65% of our sales in the U.S. are taken through digital channels. The brand continues to 'deliver the dream' to local business owners, 90% of which started as delivery drivers and pizza makers in our stores. That's just the tip of the iceberg...or as we might say, one "slice" of the pie! If this sounds like a brand you'd like to be a part of, consider joining our team!

Requirement

Collaborate to understand markets requirements, technical environment and needs

Prepare and deliver technical presentations explaining IT products to existing and prospective international master franchises

Consult and sell DPZ IT product portfolio; demonstrate benefits of Domino's products versus competing products

Advise international franchisees on technology implementations to drive profitability and/or improving operations
