

Transformer Service Engineer

[Apply Now](#)

Company: Reinhausen Middle East FZE

Location: Dubai

Category: healthcare-practitioners-and-technical

For our location Dubai we are looking for you as:

Transformer Service Engineer

What challenges can you expect?

You will perform repairs and maintenance work in regard to the designated product spectrum both on-site and in-house

Thereby, you are responsible for the preplanning of service jobs to be carried out (verification of service material, obtaining scope of work and all information necessary to carry out the job)

Creating technical service reports and forwarding them to the technical manager will be within your responsibility

Likewise, you will consult customers and carry out training at the respective location

You will assess and resolve problems in in regard to the Transformer and OLTC units and assembly groups depending on personal qualifications

What do we expect from you?

You are a skilled worker with appropriate experience in Electrical or Mechanical Engineering

You have experience and enjoy digitalization in the industrial sector and can inspire our

customers about it

You enjoy practical and challenging hands-on tasks in the electrical/mechanical field

Ideally, you have basic knowledge about power transformers

In addition, you have general knowledge about local energy grid design

Customer-orientation and reliability are self-evident to you

You are business fluent in English , additional foreign languages are a plus
