UAE-Operations Expert

[Apply Now](#)

Company: Apple Inc.

Location: dubai

Category: other-general

As an Operations Expert, you know better than anyone else the satisfaction of getting the latest Apple product into your hands. So it's up to you to make sure customers are just as satisfied. By guiding and mentoring your team, you help keep pace with changing demands and make sure every product and demo machine is where it should be. At the end of the day, it's your organizational skills and dedication that are at the heart of what the Apple Store does — connecting people to the products they love.

Key Qualifications

- Ability to think quickly and perform problem-solving tasks, even within changing conditions.
- Leadership skills, whether guiding by example or coaching a group.
- Strong organizational skills, quickly evaluating every situation.

Description

As an Operations Expert, you and your team have the incredible responsibility of ensuring products take the final step in the supply chain: getting into customers' hands. You're in charge of the store's entire inventory - products, parts, tools, supplies, and everything else. You make sure your team has the support, knowledge, and resources required to maintain product availability, complete inventory tasks, and keep the stockroom organized as new products arrive. You're in constant contact with the management and leadership teams, sharing data about the status of products and parts. And when exciting new products arrive, you're the first to open them up and present them to the entire store team. Apple makes the products, but you make it happen by being ready to place our products in customers' hands.

Additional Requirements

- You can manage and meet multiple inventory deadlines each week.
- You're willing to observe guidelines to allow secure access to products and movement through the stockroom.
- Multilingual ability is a plus.
- You'll need to be flexible with your schedule. Your work hours will be based on business

needs.
