Udrive Careers | VP of Engineering Jobs in Dubai

Description:

As a VP of Engineering at Udrive you have a crucial leadership role in the development and maintenance of our technology. You will have the opportunity to drive real impact on the

way our team collaborates, achieves common goals and most importantly share your knowledge based on real world past experience to all team-members. We expect additional cultivation of team culture on key areas such as ownership, mastery

Job Responsibilities:

Lead and grow our tech team

Advocate and implement technical and organizational best practices

Assess, build and maintain technical architecture with the purpose of building products that scale both geographically and deliver value to the customer

Develop, together with the team, a roadmap for implementing software engineering practices for higher code quality.
