UI/UX Designer (Remote) Jobs In Dubai 2022 | Playdawn

Description:

We are a rapidly growing mobile gaming studio focused on the mid-core multiplayer FTP space. We have two successful titles on the market, published by top-grossing publishers (ex: MiniClip), and are currently growing the team to support our new mobile shooter game title currently under production.

As we continue our growth, we are looking for an ambitious and experienced UI/UX Artist to help us create beautiful and intuitive experiences for our players.

The position can be remote, or you can join us at our brand new state-of-art offices in YAS Island, near Dubai, UAE.

Job Responsibilities:

Define the overall vision and design of the game's user interface

Create wireframes and UI art assets

Work with a team of developers to ensure the final product reflects the design vision and delivers an intuitive user experience

Develop arts assets from concepts, sketches, wireframes, and polish to a final product

Collaborate with the design team and lead efforts to create wireframes, mockups, and icons

Ensuring an overall high-quality level of the UI design, and User Experience

Job Requirements:

Worked on the UI of at least 2 shipped mobile game titles (please include references)

Extensive experience in a UI/UX design role within the games industry.

The ability to communicate your vision to designers, artists, programmers, producers and others involved in the development process.

Ability to create art assets in 3D and 2D

A strong knowledge of software used in UI development, preferably including Unity UI, Photoshop and other tools

A keen interest in general in User Interface Design and User Experience

Excellent written and oral communication skills

Outstanding attention to detail and a proactive problem solver
