

UX-UI Manager (GRC)

[Apply Now](#)

Company: Michael Page

Location: United Arab Emirates

Category: healthcare-practitioners-and-technical

Opportunity to work with one of the biggest player in the industry|Career Opportunity

About Our Client

You will be working for an ambitious mega-city project located in the Kingdom of Saudi Arabia. It aims to be a leading global hub for innovation, technology, and sustainable living, encompassing various sectors such as energy, water, biotechnology, and entertainment. The project is strategically positioned to contribute significantly to economic diversification and regional development, incorporating cutting-edge technologies and urban planning concepts.

Job Description

As Ux-UI Manager your responsibilities will be :

Project Understanding:

Lead comprehensive pre-implementation activities, including the analysis of current architecture, stakeholder interviews, and understanding new content and functionality requirements.

Strategic Insight:

Grasp the broader needs of the Company and its diverse audience segments to inform user experience decisions effectively.

Content Development:

Collaborate with content-focused colleagues to develop site maps and content outlines that align with project goals.

Problem-Solving Approach:

Demonstrate a relentless commitment to problem-solving throughout the UX/UI design process.

Wireframe Prototyping:

Utilize Figma to create detailed wireframe prototypes, ensuring a visual representation of the proposed user experience.

Interface Design:

Design intuitive and compelling interfaces optimized for seamless user experiences across various devices.

Brand Identity Maintenance:

Safeguard and extend the brand identity system (design system) to maintain consistency across all design elements.

Collaborative Engagement:

Engage in presentations with key stakeholders, and collaborate with a diverse team including developers, content stakeholders, copywriters, photographers, project managers, and marketing managers to ensure a successful web launch.

The Successful Applicant

5+ years' experience in UX/UI design, interaction design, information architecture, or

other related disciplines - key visual UI design eye a must

Experience using Figma

Someone who is curious and can keep us ahead of the curve.

Ability to solve complex interactions and demonstrate a high level of critical thinking skills

Well-versed in Design Thinking principles and cross-platform design best practices

A comprehensive portfolio that demonstrates intuitive and compelling designs

Self-starter with a track record of delivering quality work under deadlines

Ability to juggle multiple projects

Extraordinary attention to detail and craftsmanship

A natural collaborator with excellent interpersonal skills

What's on Offer

To be discussed
