Company: Confidential

Location: Dubai

Category: other-general

Job Scope and Responsibilities Collaborate with cross-functional teams to understand user requirements and business goals, translating them into intuitive and compelling user experiences. Conduct user research activities, including usability testing, interviews, and surveys, to gather insights that inform design decisions. Create wireframes, prototypes, and design mockups that effectively communicate your design vision and enhance the overall user experience. Work closely with developers to ensure the feasibility of your designs and contribute to the iterative development process. Advocate for user-centered design principles, ensuring that user feedback is integrated into the design and development lifecycle. Stay updated on industry trends, best practices, and emerging technologies in UX/UI design and FinTech. Preferred Qualifications: Proven experience in UX/UI design for financial applications or related domains. Familiarity with design tools such as Figma, Sketch, or Adobe Creative Suite. Strong portfolio showcasing a range of design projects and your process from concept to execution. Understanding of the financial industry and the specific challenges and opportunities in FinTech. Experience with user research methodologies, including usability testing, user interviews, and persona development. Ability to collaborate effectively with multidisciplinary teams and stakeholders. Ability to work independently and manage multiple projects and deadlines.
