Category: healthcare-practitioners-and-technical

Vector 2D/3D Developer About the job Vector 2D/3D Developer

### What You Will Do:

As a key member of our software development team, you will join a project for a client in the **automotive industry**. This position offers a unique opportunity to apply and expand your skills in a dynamic and technically challenging environment. We value innovation, precision, and commitment to excellence. If you have a passion for software development and meet the below criteria, we encourage you to apply.

**Location:** Based in the UAE, the role requires on-premise visits to clients for software setup with cutting plotters.

**Industry Experience:** Experience with cutting plotter software is highly desirable.

**Language Requirement:** Must be proficient in English. **Start:** 1 to 2 months

### Requirements:

#### Expertise in Vector Graphics:

Proven experience working with vector formats and developing solutions for **CAD tools**.

#### Strong Mathematical Background:

Advanced mathematical skills for **implementing complex algorithms and computations**.

### **SVG Proficiency:**

In-depth understanding of **SVG graphics**, including parsing and interpreting complex paths.

### **WebGL Implementation:**

Hands-on experience implementing **WebGL for 3D and 2D graphic rendering**.

Knowledge of managing shaders and optimizing performance in web contexts.

### **Binary Data Manipulation:**

Ability to read, write, and manipulate data in binary format.

Ensure data integrity and implement efficient binary data processing.

### **Problem-Solving Skills:**

Strong problem-solving abilities and a passion for overcoming challenges.

### **Collaborative Team Player:**

Work effectively within cross-functional teams to achieve project goals.

Job ID QY765649
