Activities Join our affiliate TotalEnergies Renewables Development UAE in Dubai !
Develop relevant HSE procedures and templates based on company procedures
• Support the HSE Manager, technical and operations managers in their HSE responsibilities for the region
• Ensure compliance by all project contractors to relevant legislation and Group HSE requirements, with the full support of project managers
• Qualify new contractors on HSE point of view. Make sure HSE performance of contractors is reviewed after each project
• Review HSE Plans, Procedures, Method Statements, Risk assessments for the projects, & all Health, Safety & Environment related documentation to ensure compliance with Group and local requirements
• Conduct frequent and regular inspections of both construction sites and maintenance operations to check compliance to HSE plan and procedures
• Identify potential hazards & recommend solutions at all stages of projects, including design review
• Monitor implementation of environmental mitigation measures during construction and O&M phases
• Assist Project Managers to implement improvement & prohibition notice to contractors and set up recommendations & corrective actions
• Investigations of incidents, and issue related HSE reports
• Ensure proper HSE training of staff, organize HSE promotion events such as World Day for Safety & Environment
• Collect relevant information and report H3SE data.
Context & Environment
