VP of Engineering Jobs in Dubai | Udrive Careers UAE

Description:

As a VP of Engineering at Udrive you have a crucial leadership role in the development and maintenance of our technology. You will have the opportunity to drive real impact on the way our team collaborates, achieves common goals and most importantly share your knowledge based on real world past experience to all team-members.

Responsibilities:

Advocate and implement technical and organizational best practices

Assess, build and maintain technical architecture with the purpose of building products that scale both geographically and deliver value to the customer
