Water/ Wastewater Modeling Lead | Parsons Engineering Jobs in Dubai

Description:

Parsons is looking for Water/Wastewater Modeler Lead to join our urban water supply and sewerage/drainage team to provide technical leadership for delivery of wastewater network projects.

Responsibilities:

Leading the design of urban water systems designs from concept to detailed design and construction, as stand-alone projects or as part of larger multi-disciplinary schemes.

Overseeing and reviewing the production of drainage designs, models, calculations, and drawings to relevant standards, including providing technical assurance of designs.

Leading the co-ordination of the design process and integrating with associated engineering designs.

Requirements:

A degree-level qualification in a relevant subject, such as civil/mechanical/environmental engineering.

Candidates having master's degree in above with specialization in water supply and sanitation engineering will be preferred.

Minimum 12 years of experience of working as design engineer/modeler in consultancy firm or municipality. Preference will be given to candidates having UAE and GCC experience.
