Description:

We are looking to hire a skilled WordPress developer to design and implement attractive and functional websites for our clients. You will be responsible for both back-end and front-end development including the implementation of WordPress themes and plugins as well as site integration and security updates.

Responsibilities:

Meeting with clients to discuss website design and function.

Designing and building the website front-end.

Creating the website architecture.

Designing and managing the website back-end including database and server integration.

Generating WordPress themes and plugins.

Conducting website performance tests.

Troubleshooting content issues.

Conducting WordPress training with the client.

Monitoring the performance of the live website.

Requirements:

Bachelor's degree in computer science or a similar field.

Proven work experience as a WordPress developer.

Knowledge of front-end technologies including CSS3, JavaScript, HTML5, and jQuery.

Knowledge of code versioning tools including Git, Mercurial, and SVN.

Experience working with debugging tools such as Chrome Inspector and Firebug.

Good understanding of website architecture and aesthetics.

Ability to manage projects.

Good communication skills.
